Who we are?

Greentech General Maintenance LLC (Green Tech) stands as a premier entity in the UAE's HVAC, MEP and Fitout Construction sectors. Driven by a team of seasoned engineering professionals with over four decades of industry expertise. Our service includes Design, Supply and Installation of HVAC, Electrical, Plumbing, Mechanical, Low Current and Fit Out Works. Our commitment to excellence is underscored by our clients testimonials and International standard certifications. We are ISO certified organization. Greentech has ISO 9001, 14001, 27001 and 45001 certifications, which affirm our adherence to the highest standards of quality.

Greentech started its humble beginning in 2013 as a MEP Company. Greentech started Fitout Contracting in the year 2017. Over the Year Greentech got wide exposure across sectors such as Health Care, Education, Hospitality, Construction, Financial Services, Retail, Pharmaceutical, Life Science, Manufacturing, Facility Management, IT and ITES, etc.

Green Tech has garnered widespread acclaim from our esteemed clients for our unwavering dedication to timely project delivery and exceptional workmanship. Our portfolio boasts successful collaborations with some of the largest organizations in the UAE, reflecting our capability to manage and execute complex projects with precision and reliability.

GENERAL MAINTENANCE L.L.C

MD's Message

Welcome to GreenTech General Maintenance L.L.C. (Green Tech).

Our journey began with a vision to revolutionize the HVAC, Electrical, Plumbing, Low Current, and Fit-Out Contracting. GreenTech is founded by a team of engineering professionals with decades of experience. Driven by a passion for excellence and a commitment to innovation, we set out to create a company that not only meets but exceeds client expectations.

From our humble beginnings with a small but dedicated team of engineers, we have always emphasized the importance of building strong relationships with our clients. Understanding their unique needs and delivering customized solutions has been at the core of our approach, earning us a reputation for reliability and excellence.

Over the years, Green Tech has grown significantly, expanding our services and capabilities to meet the evolving demands of the industry. We have invested heavily in training and development, ensuring our team remains at the forefront of technological advancements and industry best practices. This commitment to continuous improvement has enabled us to offer innovative solutions that enhance efficiency and effectiveness.

Our history is marked by a series of milestones that reflect our growth and success. From securing major contracts with prestigious clients to completing complex projects with precision and expertise, we have consistently demonstrated our ability to deliver outstanding results. Today, Green Tech stands as a reputable company in the industry, known for our unwavering dedication to quality, integrity, and customer satisfaction.

As we look to the future, we remain committed to our founding principles of excellence, innovation, and client-focused service. We continue to explore new technologies and methodologies to further enhance our offerings and maintain our position as a trusted partner.

Thank you for your continued support and trust in Green Tech.

Sincerely,
Rajesh Kumar
Managing Director
GreenTech General Maintenance L.L.C.

Our Services

MEP Services

At GREENTECH, we specialize in providing comprehensive HVAC, Mechanical, Electrical, Low current and Plumbing (MEP) solutions that are tailored to meet the unique requirements of each project. Our MEP services are designed to ensure functionality, efficiency, sustainability, and compliance with international standards, while delivering seamless integration across all building systems.

HVAC

GreenTech specializes in the installation, maintenance, and repair of HVAC systems. Our services include everything from designing and installing new systems to maintaining and upgrading existing ones. We use the latest technology and industry best practices to ensure that your HVAC systems are energy-efficient, reliable, and tailored to your specific requirements.

- Design, Installation and Maintenance of HVAC system.
- Chilled water systems (Air cooled /Water cooled! Chilled beams /District cooling) installation Maintenance and repair.
- All types of AC Installation FCU, Split, Packaged, AHU, FAHU, VRF.
- HVAC design, heat load calculation, equipment selection.
- HVAC System for operation theater, isolation rooms, labs, IVF rooms, CSSD etc.
- HVAC System for specialized projects like stem cell, specialized labs, etc.
- Refrigeration and chiller units for medical waste rooms, blood banks and cold storage applications, etc.
- Server and data room AC solutions-both CCU and In row cooling system.

GREEN TECH
GENERAL MAINTENANCE L.L.C

Electrical Services

We are TAQA Certified electrical contractor. We offer a full range of electrical services, including design, installation, maintenance, and repair. Our team of certified electricians is experienced in handling all types of electrical systems, from simple wiring projects to complex installations. We prioritize safety and compliance with all relevant regulations, ensuring that your electrical systems are both safe and efficient.

- All types of electrical installation and Maintenance.
- Low Voltage Distribution MDB, SDB.
- Cabling, Lighting - interior and exterior.
- Medium Voltage Substation Transformers, Control Equipments.
- Lighting - interior and exterior ,Lighting control system.
- Trouble shooting.
- Upgradation of existing electrical system, etc.

Plumbing Services

Our plumbing services cover everything from installation and maintenance to emergency repairs. We handle all types of plumbing systems, including water supply, drainage, and sewage systems. Our experienced plumbers use high-quality materials and the latest techniques to ensure that your plumbing systems are reliable and efficient.

- All types of Plumbing Installation and Maintenance.
- RO water systems, grease and oil traps, domestic and commercial.
- All types of pipe installations, GIMS HDPE, PVDF, PEX pipes, PPR, PVC, UPVC.
- Toilet Fittings and kitchen Fittings, Water tank Cleaning.
- Pressure Tank, VFD correction, Trouble Shooting.
- Underground pre insulated pipes.
- Water leak detections system.

Low Current Systems

At GREENTECH, we provide cutting-edge Low Current Systems that enhance the safety, efficiency, and intelligence of modern buildings. These systems are designed to support seamless communication, monitoring, and control, playing a vital role in smart infrastructure and integrated building solutions. Our Low Current solutions are engineered to meet international standards and are tailored to suit the unique requirements of each client, whether for residential, commercial, industrial, or institutional projects.

Our Low Current Services Include:

- **Structured Cabling Systems :** High-performance cabling infrastructure for data, voice, and multimedia transmission, ensuring reliable connectivity and scalability.
- **CCTV & Surveillance Systems :** Advanced IP and analog surveillance solutions for real-time monitoring and security management.
- **Access Control Systems :** Secure and flexible access management through biometric, RFID, and smart card systems.
- **Public Address & Voice Evacuation Systems :** Effective communication and emergency alert systems for large facilities, integrated with fire alarm and safety protocols.
- **Fire Alarm & Detection Systems :** Intelligent addressable and conventional systems for early detection and rapid response.
- **Building Management Systems (BMS) :** Centralized control and automation of HVAC, lighting, energy, and other building systems for efficiency and sustainability.

With a dedicated team of engineers and certified technicians, we ensure that every Low Current System is meticulously designed, integrated, and tested to deliver optimal performance, reliability, and long-term value. From consultation and design to installation and maintenance, GREENTECH is your trusted partner in delivering smart building solutions.

GREEN TECH
GENERAL MAINTENANCE L.L.C

Other Mechanical systems

At GREENTECH, our Mechanical Services division is the backbone of efficient, sustainable, and comfortable building environments. We deliver innovative and reliable mechanical solutions that meet the highest standards of safety, functionality, and energy efficiency

Our Core Mechanical Services Include:

- **Fire Fighting Systems :** Comprehensive fire protection solutions, including sprinkler systems, fire hose reels, fire pumps, standpipes, FM200, and clean agent systems in compliance with international codes (NFPA, BS, etc.).
- **Smoke Management Systems :** Pressurization and smoke extraction systems to ensure safe evacuation and limit smoke spread during fire emergencies.
- **Pump Room Installations :** Complete setup of mechanical pump rooms including booster sets, transfer pumps, and control panels.
- **Building Management & Automation Systems (BMS) :** Integration of mechanical systems into a centralized BMS platform for intelligent monitoring, control, and energy management.
- **Ducting and Piping Works :** Fabrication and installation of ductwork, chilled water piping, and all associated accessories as per project specifications and industry standards.
- All types of metal fabrication and installations.

Our experienced mechanical engineering team works hand-in-hand with consultants, developers, and contractors from the design phase to final handover. We ensure every system is carefully engineered, precisely installed, and thoroughly tested for optimal performance and compliance. With a commitment to quality, safety, and sustainability, GREENTECH delivers mechanical solutions that stand the test of time.

Fit-Out Contracting

Transforming Vision Into Reality — With Precision, Passion, and Purpose.

At GREENTECH, we don't just build spaces—we bring them to life. Our Fit-Out Contracting and Engineering Division is dedicated to crafting high-quality interior environments that seamlessly blend form, function, and flawless execution. Whether it's a commercial office, luxury residence, retail outlet, Hospital or hospitality venue, we turn concepts into captivating, functional realities. From shell-and-core to fully finished interiors, we manage the full fit-out lifecycle—engineering, procurement, execution, and handover—with meticulous attention to detail and a relentless commitment to excellence.

Our Fit-Out Services Include:

- Interior and architectural finishes (walls, ceilings, flooring, partitions)
- MEP coordination and execution within fit-out scope
- Custom joinery and millwork
- Turnkey furnishing and decoration
- Lighting and mood design integration
- Smart systems and automation for modern workspaces
- Fire & life safety compliance integration within design

With an expert team of engineers, architects, project managers, and skilled craftsmen, GREENTECH delivers spaces that are as inspiring as they are enduring. Whether it's a high-end commercial project or a bespoke private interior, we bring innovation, precision, and creativity to every corner.

KEY USPS

8

Cost effective Solutions

1

Design-Driven Engineering

We fuse technical excellence with design intent to ensure that every detail enhances both aesthetics and performance.

2

One-Stop Solution

From initial space planning to final handover, we handle it all—so you don't have to.

3

On Time, Every Time

Our agile project management approach ensures timely delivery without compromising quality.

4

Sustainability Focused

Wherever possible, we incorporate eco-conscious materials and systems that reduce energy footprint and align with green building standards.

5

Zero Compromise on Quality & Safety

We build with integrity and comply with all relevant codes and regulations.

6

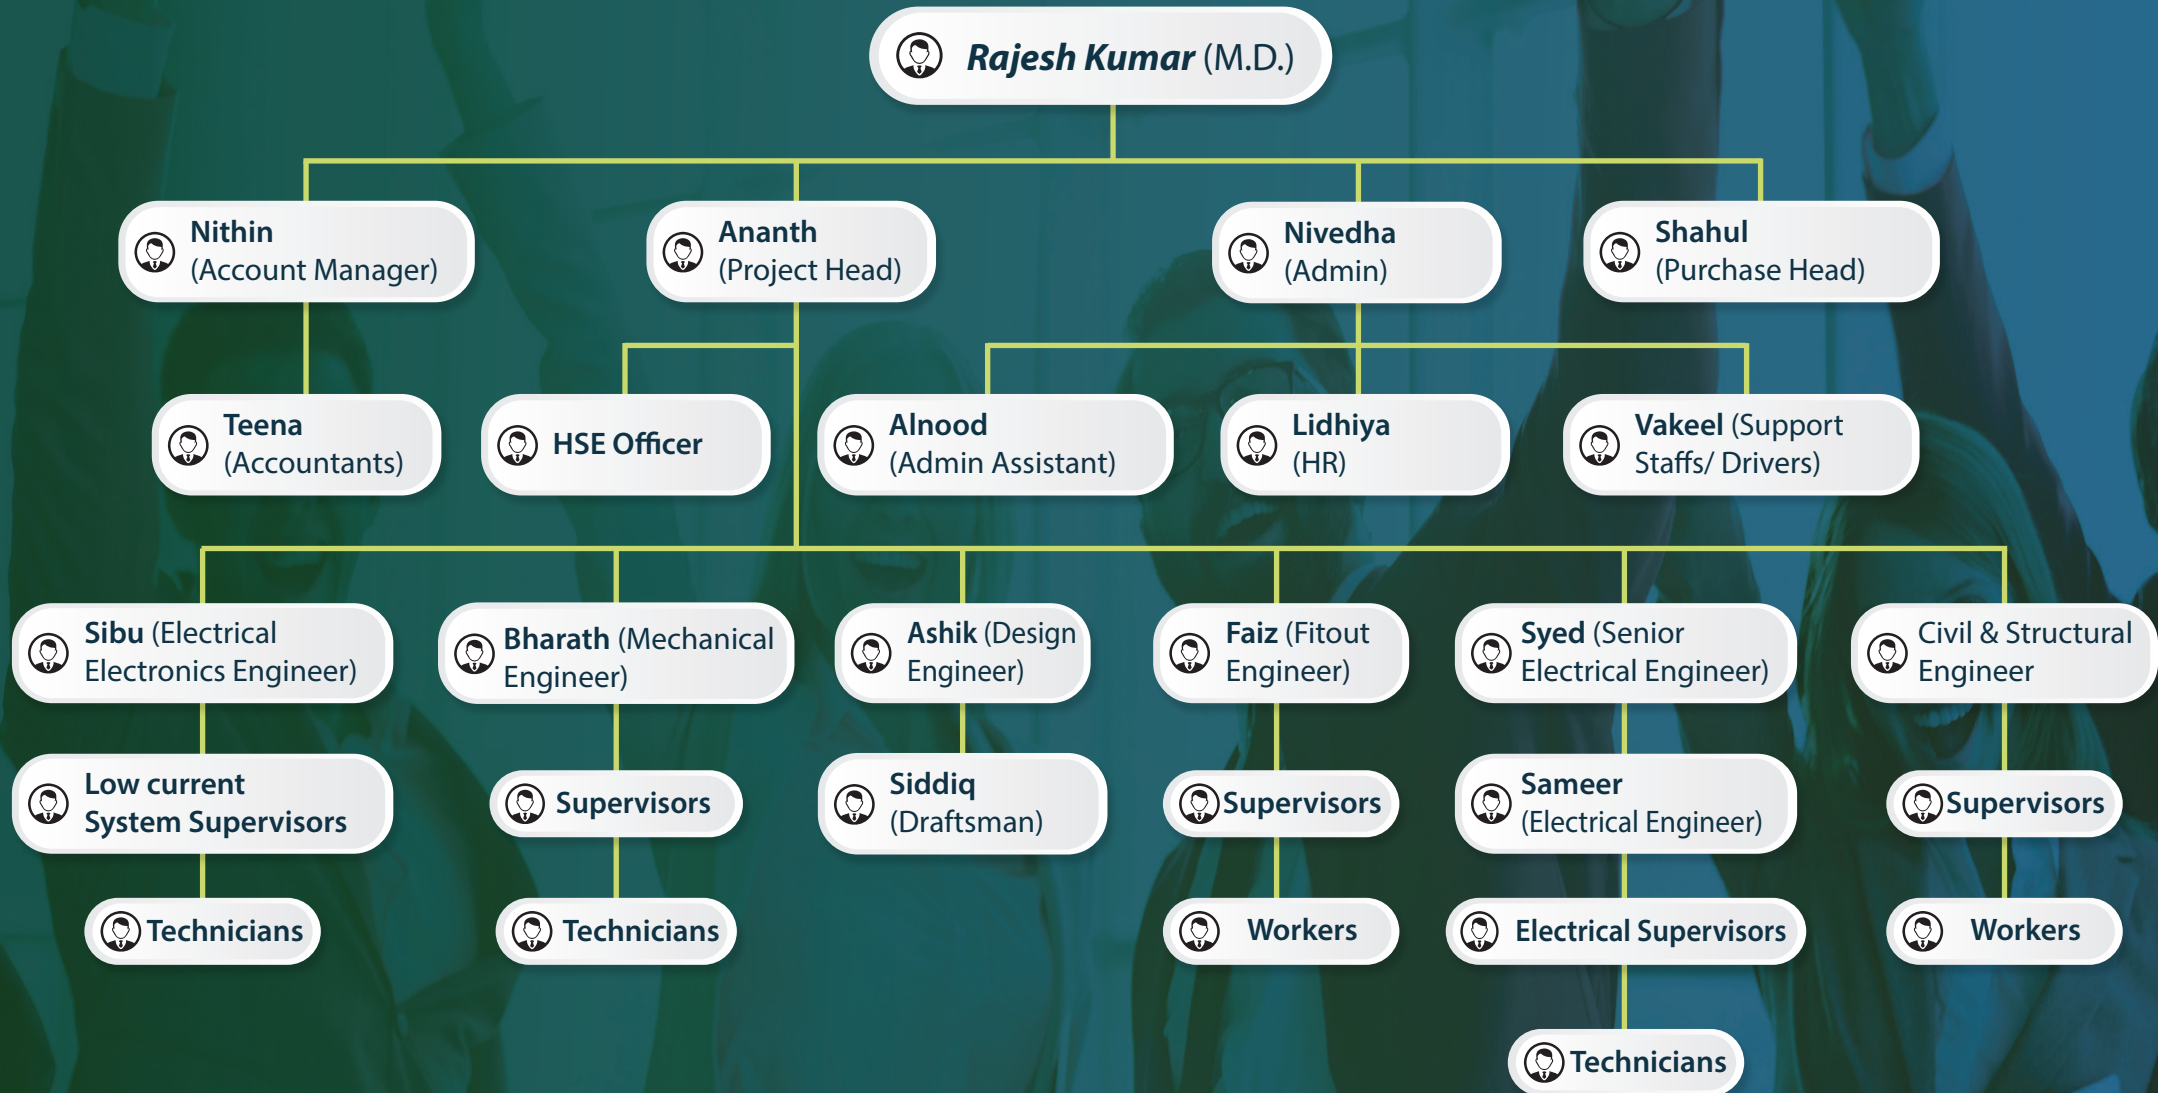

Technically sound team of Engineers
